

Recycle?

Why we Should Recycle

Danielle Harris

Grade: 4

3rd Place - Grades 3rd to 5th

Eldridge Elementary School

I think we should recycle because if we do we will save our natural resources. When we recycle it makes it possible to use the same materials over and over again. If we don't recycle we can use all of our natural resources up. Recycling also provides jobs for those who work at the recycling centers. If we don't recycle, the people at the recycling centers will lose their jobs and won't make any money. So if you recycle you can also save the environment.
